"IT IS A HOME WHEN IT IS PLANTED"

1944-1945 WHOLESALE PRICE LIST

"Serving The Southwest for Over 60 Years."

GRIFFING NURSERIES

BEAUMONT, TEXAS

GRIFFING NURSERIES

Headquarters and General Offices at

BEAUMONT, TEXAS

Telephone Day or Night—2480

AN INVITATION TO VISIT OUR NURSERIES

Visitors are always welcome at our Nurseries. Griffing's Organization takes A KEEN DELIGHT in showing the visitor over the 300 ACRES of Evergreens and Shrubs. If you are experienced in Plant

Culture you WILL ENJOY seeing the splendid assortment of Trees, Shrubs, Evergreens, Fruits, etc., at Griffing's, while an amateur WILL LEARN something of Garden Planning in an interesting and PLEASURABLE WAY.

"Where the great East Texas meets the Sea." A network of Highways and Railroads, giving efficient transportation everywhere.

Located on U. S. Highways 96 and 69. Note the short cut-off from Amelia when coming from the West which saves several miles.

TERMS OF BUSINESS

PRICE LIST FOR TRADE ONLY

This Price List supercedes and cancels all outstanding prices. On account of the Defense Program, Prices and Terms of Sale are subject to change without notice because of soaring prices in labor and material costs.

This Catalog is intended for members of the Trade (Nurserymen, Landscape men, Dealers, Florists) who buy for resale plant materials. Should it fall into the hands of a Retail customer, it will be appreciated if it is returned directly to us.

TERMS AND DISCOUNTS: Cash in advance, unless satisfactory arrangement is made before shipment. Five percent (5%) will be allowed for Cash if remittance accompanies order. Two percent (2%) discount will be allowed for open accounts if paid within 10 days from date of delivery. Thirty (30) days net on List prices. Six percent (6%) interest will be added on overdue accounts, and subject to "Sight Draft".

PACKING: Where stock is loaded in car or truck, without tops wrapped, no charge for packing is made. Where L. C. L. or Express shipments require baling, boxing or crating, we make a charge for material and labor at cost.

SPECIMEN NURSERY STOCK: Specimen Stock above XX and XXX Quality, selected or marked in the Nurseries, will be priced according to its value.

RESERVE ORDERS: Reserve orders are accepted upon payment of 25% advance, and upon the condition that they shall be void, should injury befall the stock, or error in count before shipment, or other causes beyond our control.

GUARANTEE: We guarantee our Stock to be well grown, true to name, properly packed and shipped according to instructions. In no case shall our liability be more than the original Invoice value. We cannot guarantee plants to live or grow after they leave our hands.

CLAIMS: Complaints properly presented will be given special attention. Any claims must be made upon receipt of shipment, or within five (5) days. Be sure to have exceptions for damages noted on Transportation receipt at time of delivery.

SHIPPING POINT: All prices are f. o. b. our Nurseries, and Shipment travel at the risk and expense of the Purchaser. We load trucks and Carloads at our Nurseries. Carload shipments billed from Mt. Evergreen, or Gilburg, Texas siding, adjoining our fields. Express and Less Carloads shipped from Beaumont, Texas.

TRANSPORTATION INFORMATION

L. C. L. or MOTOR FREIGHT takes fourth Class, whether packed in Bales, Boxes or Crates to any point in the Southwest.

FREIGHT RATES LOWERED: There is now a New B&B Carload Freight Classification effective in all States included in the Southwestern Shipping Areas (including all the States of Texas, Arkansas, Louisiana and New Mexico; and portions of Mississippi, Alabama, Missouri and Tennessee) and possibly points beyond these limitations where the new freight rates are now in effect for this B&B Classification.

B&B CARLOAD RATES in the above Territory applies to 18,000 lb. Minimum Carloads which takes Column No. 25; and on 30,000 lb. minimum Carloads, takes Column No. 20 rate (20 per cent of First Class).

EXAMPLES OF LOW CARLOAD RATES effective to various Cities as follows: (Column No. 20 or 30,000-lb. Minimum Carload quoted). From our Shipping Point to:

Amarillo, Texas	44c	Laredo, Texas	36c
Albuquerque, N. M.	53c	Little Rock, Arkansas	35c
Baton Rouge, La.	24c	Memphis, Tennessee	39c
Corpus Christi, Texas	38c	Monroe, Louisiana	24c
Dallas, Texas	29c	Natchez, Mississippi	38c
El Paso, Texas	53c	New Orleans, Louisiana	28c
Enid, Okla.	43c	Oklahoma City, Okla.	39c
Fort Worth, Texas	38c	San Antonio, Texas	29c
Galveston, Texas	16c	Shreveport, Louisiana	25c
Harlingen, Texas	36c	Tyler, Texas	24c
Houston, Texas	17c	Waco, Texas	27c
Jonesboro, Arkansas	40c	Vicksburg, Mississippi	31c

For other points in this territory, ask your Local Freight Agent the Rates from Mt. Evergreen, Texas, to your City; or write us direct for it.

ASSOCIATION MEMBERSHIP

To further the interest of the Nursery and Landscape Development and keep posted on affairs of interest to the Trade, we maintain membership in the following Trade Associations:

American Association of Nurserymen, Landscape Nurserymen's Association of the American Association of Nurserymen, Beaumont Florists and Nurserymen's Club, Beaumont Chamber of Commerce, Louisiana State Horticultural Association, Inc., Texas Association of Nurserymen, Texas State Florists' Association.

A NURSERY WITH A BACKGROUND OF OVER HALF A CENTURY IN THE SOUTH GROWING TREES

Over fifty years have passed since the present Griffing Organizations had their first inception in a small nursery in Northern Florida on land owned by the late D. C. Griffing, and managed by his five sons under the name of "Griffing Brothers."

Always the Griffings grew the stock they sold, offered the best of everything, experimented in every locality to find the most adaptable varieties, dug their Trees with care, packed under rigid inspection, and in all their activities gathered and disseminated information for the benefit of their patrons.

Panorama View of Our Extensive Nursery

PRESENT MANAGEMENT

W. C. Griffing, who has been AT THE HEAD of Griffing Nurseries SINCE ITS BEGINNING, is proud to have ASSOCIATED with him his son Ralph C. Griffing, since his graduation from Texas A. & M. College, and it is THEIR INTENTION to carry on the Nursery Business THE GRIFFING WAY, symbolizing Quality Nursery Stock.

While Ralph C. Griffing is in the Armed services, at the present time, the father is supervising and carrying on with general management and supervision of the Nursery fields and the many customers of the organization.

WALTER C. GRIFFING, Father

LIEUT. RALPH C. GRIFFING, Son

THE GRIFFING STORY

With a love of GARDENING INSTILLED by STURDY WELSH PARENTS, rich in old world lore, the Griffings have, for more than HALF A CENTURY, devoted their energies to seeking NEW VARIETIES, improving old favorites, and distributing among their EVER WIDENING circles of CUSTOMER-FRIENDS, plants that will add to the beauty and livableness of the Southern Home.

Thus was the beginning of the present Organization, which CONTINUES TO SERVE YOU. For adequate irrigation facilities, land was secured FIVE MILES NORTHWEST OF BEAUMONT, where the present OFFICES ARE LOCATED, where we have plenty of CHOICE BEAUMONT BALLING SOIL for growing Nursery Stock, and PRIVATE SIDE TRACKS for loading.

QUANTITIES OF BROADLEAF

For many years we have specialized in the production of BROAD-LEAF and Coniferous EVERGREENS, probably producing more

of these classes than any other SOUTHERN NURSERY. We have been able to determine the most hardy and SUITABLE VARIETIES for this section, and on these we have concentrated our MAIN EFFORTS, that our large 300 ACRE NURSERY yield an abundance of these plants to meet the ever increasing demand.

BUY WITH CONFIDENCE!

Our Customers are always welcome to visit our Nurseries and make their selections in person, but they do not have to do this in order to get good selections of Landscape material. Old customers have found this true and it saves them time and worry by ordering stock of quality standards and let us make the selections.

With curtailed travel and limited time for personal trips, let us urge more customers to place the responsibility with us to make your selections. Just make up your orders and specify Quality and heights desired. We will do the rest, and satisfy your most choice customers. Try us and be pleased with our selections and our service too!

SPECIAL MESSAGE TO *The Trade:*

Dear Friends:

We had hoped that before the time came for the publication of another WHOLESALE PRICE LIST this Fall, that we would have Peace and a return of more settled conditions. However, we have a little longer to wait, though we trust that it will not be for long.

Under the existing conditions, we have prepared in this 1944-45 Price List, a revised listing of the sizes and varieties of Shade Trees, Shrubbery, Palms, etc. which we have available at this time. Prices are based on current conditions for handling, and would be greatly increased if we had not had a good supply on hand in our fields from the past year or so instead of growing it at present labor prices.

While we are short of labor, and it is difficult that we continue as under normal conditions, we do take pride in giving our customers good service on orders placed with us. We try to maintain the same high quality of service and workmanship as during pre-war times, and find that we render far more efficient and prompt service to our customers than we have been able to receive on supplies purchased.

We thank each and all of our many hundreds of customers, for the business handled for them, and on the merits of furnishing good stocks, properly grown and prepared for transplanting, we solicit your orders for the the current Season.

WE GIVE THE EARTH -- B & B

Digging a B&B Tree.

No Roots Exposed to the Air.

The Dirt Can't Break Away From the Roots.

A FEATURE ABOUT GRIFFING'S B&B NURSERY STOCK YOU MUST NOT OVERLOOK

Our GREAT SUCCESS in transplanting Trees and Shrubs safely at all Seasons may be largely ATTRIBUTED to our Wonderful Balling Soil. There is no OTHER JUST LIKE IT. We have the soil that is "just right" for Balling and Burlapping. The Ball is CUT out in one solid piece, often compared TO SLICING A "piece of cheese." Note the solidity of the Ball in the illustration.

CAUTION

Never lift Trees and shrubs by the Top. Lift the Ball Itself by grasping it with both hands around the ball, or Larger Balls by making a Sling of Burlap, so as not to loosen Roots in the Ball.

NB MEANS NOT BALLED

Or that the Trees or Shrubs SO LISTED are dug from the Nursery WITHOUT HAVING THE DIRT ABOUT THE ROOTS. When Trees or Shrubs are dug in this manner, they are puddled in THICK MUD; than mulched in SHINGLE SAWDUST, and tightly wrapped with paper and BURLAP to retain the moisture WHEN SHIPPED or delivered.

BEAUMONT BALLING SOIL

It is commonly known as "BEAUMONT LOAM," peculiar only to this IMMEDIATE SECTION. It is RICH AND BLACK, and when taken up in the form of a ball, IT WILL NOT crack or CRUMBLE, and does not DISSOLVE WHEN SET IN WATER for several days.

ALPHABETICAL LISTING

THIS CATALOG OF TREES AND SHRUBS HAS BEEN ARRANGED FOR YOUR CONVENIENCE

Trees and Shrubs CAN BE FOUND much easier when NAMES ARE ARRANGED alphabetically according TO THE FAMILY to which THEY BELONG. All listings are by the Common Names, followed by the Botanical Names. You should BE ABLE TO FIND whatever you want, and recognize it BY THE BRIEF DESCRIPTION. Should YOU DESIRE A Tree or Shrub NOT LISTED, write us OR CALL AT THE NURSERY; it is probable that WE CAN SUPPLY your needs, but we may not have enough of a certain variety TO CATALOG.

ABELIA

GLOSSY

Class	Min. Height	A. grandiflora	XX	XXX
B&B	4 ft.	\$ 1.80	\$ 2.50	
B&B	5 ft.	2.50	3.25	

ARBORVITAE—*Thuja orientalis*

Thuja orientalis bakerii

Tall-growing, columnar habit.

MAURINE

T. or. Griffing's New Hort. variety

One of our originations; dark green pyramid.

WINTERGREEN

T. or. Griffing's Hort. Var.

Compact growing type, very dark green color. Pyramid.

Class	Min. Height	XX	XXX
B&B	5 ft.	\$ 3.25	
B&B	6 ft.	4.25	
B&B	7 ft.	5.50	
B&B	8 ft.	6.80	

AZALEA

With their Evergreen foliage, and Gorgeous Blooms in the early Spring Season, no planting is considered complete without them.

All our Azaleas are sturdy, field-grown, heavy branched, measured by spread, and transplant with excellent results. Try them!

All Azaleas require an Acid Soil, hence Leaf-Mold or Peat Moss for Mulching the roots should be added over the surface of the Plant Beds. Lime and Alkali conditions of soil require Special preparation with new Acid soil.

There are no more beautiful Flowering shrubs than the INDICA-TYPE of Azaleas for the "Gulf-Coast".

NO GREATER MASS OF COLOR THAN WHERE AZALEAS ARE USED

DAPHNE SALMON

A. indica

Medium sized flowers, pleasing Salmon coloring. Mid-Season bloomer.

Class	Min. Height	XX	XXX
B&B	12 in. Ht.	\$1.20	\$1.40
B&B	15 in. Ht.	1.60	2.40
B&B	18 in. Ht.	2.50	3.50

DIXIE

A. indica

Vigorous free grower, flowers deep Salmon-Pink. See President Clay below, they are the same Variety.

FORMOSA

A. indica

We recommend and grow principally the well-known, hardy Indica Formosa which thrives in the open. Blooms heavy, rich Rose-pink flowers in gorgeous array in mid-season.

Large rich green leaves, ornamental in containers, or in Shady places outside in Gulf Coast area.

	Min. Height	XX	XXX
5 in. Pots	18 in.	\$ 1.10	\$ 1.60
6 in. Pots	20 in.	1.60	2.25

BAMBOO—Bambusa

Evergreen Reed. Large graceful clumps with feathery foliage and stems. Can be used as Specimens on the Lawn or Tall Growing Borders, or hedge-rows and Screens. Good for Clipped Hedges or Sheared Specimens. Does not spread from suckers like ordinary Reeds and Georgia striped Cane.

Bamboo along Fence Line for Screening is Most Desirable.

ALPHONSE KARR *B. nana alphonse karri*

Attractive soft-green foliage with stems of golden yellow, green stripes lengthwise.

FEATHER *B. Vulgaris*

Strong grower, Dark green, feathery foliage, green stems.

GIANT *B. dendrocalamus*

Large growing, green-stemmed, open growth, wide long leaves.

GOLDEN *Phyllostachys aurea*

Stems golden, large grower, graceful green foliage.

NINGALA *Chimonobambusa falcata*

Dwarf habit. Evergreen Reed. Many small canes, low growing graceful arching effect. Foliage light green with tips of leaves curled. Yellow stems. Effectively used as Clipped Hedges.

SILVERSTRIPE *Pleioblastus simoni variegatus*

Leaves have a Silver stripe lengthwise—Stems golden yellow.

Class	Min.	Height	XXX
B&B	15 in.	Clump 5 ft.	\$2.00
B&B	18 in.	Clump 7 ft.	2.70
B&B	2 ft.	Clump 9 ft.	3.25
B&B	3 ft.	Clump 12 ft.	4.90

NB—at 25% off B&B Prices.

CAMELLIA—Japonica

Camellias are sometimes called the "Aristocrats of Southern Gardens". Glossy foliage and colorful Flowers make them unusually attractive.

NOTE: Names applied to varieties of the Camellia Japonica are as accepted in this Trade Territory, but since they have not been adopted as Standardized, we limit our responsibility to local accepted names and identifications.

CHANDLERI ELEGANS *C. japonica*

Flowers are double, very large, and of a Cherry-red to Rose pink spotted with white. Center petals interspersed with yellow stamens.

Class	Min.	Height	XX	XXX
B&B	2	ft.	\$ 7.50	\$ 9.50
B&B	2½	ft.	9.50	12.50
B&B	3	ft.	12.50	16.50
B&B	3½	ft.	16.50	21.00
B&B	4	ft.	29.00	
B&B	5	ft.	42.00	

LADY ALICE

Dark Red flowers, peony shape, late bloomer. *C. japonica* Good Stocky

Class	Min.	Height	XX	XXX
B&B	3½	ft.		\$39.00
B&B	4	ft.		48.00
B&B	4½	ft.		58.00

LILY

Double White with occasional pink stripe through petal. *C. japonica*

Class	Min.	Height	XX	XXX
B&B	3	ft.	\$ 9.00	\$12.00
B&B	4	ft.	12.50	16.50
B&B	5	ft.	17.00	23.00

POPE PIUS

"Purple Dawn", "Purple Emperor", "Wm. Hastic". Very large extremely double flower with many small petals of rich crimson color. *C. japonica*

Class	Min.	Height	XX	XXX
B&B	4½	ft.		\$48.00
B&B	5	ft.		59.00

Purity Camellia

Prof. Sargent

PROFESSOR C. S. SARGENT *C. japonica*

Very solid, dark-red, peony form flowers of large size.

Class	Min.	Height	XX	XXX
B&B	5	ft.		\$49.00
B&B	6	ft.		59.00
B&B	7	ft.		72.00

PURITY

Pure White flowers, bushy symmetrical in shape. *C. japonica* Good grower.

Class	Min.	Height	XX	XXX
B&B	5	ft.	\$29.00	\$34.00
B&B	6	ft.	34.00	41.00
B&B	7	ft.	45.00	58.00

SOPHIA

Much like Chandleri-Elegans. Flowers more cup-shaped and large. *C. japonica*

Class	Min.	Height	XX	XXX
B&B	4	ft.		\$29.00
B&B	5	ft.		42.00

STAR WHITE

Pure White, Semi-double, yellow stamens. *C. japonica*

Class	Min.	Height	XX	XXX
B&B	4	ft.	\$12.50	\$16.50
B&B	5	ft.	17.00	23.00
B&B	6	ft.	23.00	29.00

SPECIMEN CAMELLIAS

We are listing above only small or medium sizes; however, we have many Larger Specimens in our fields priced according to Size and Variety. If you need Specimens, we invite you to look over our Collection. Sizes up to 12 ft. good types.

CORAL BERRY

Symphoricarpos orbiculatus

Indian Currant-Reddish purple berries in Fall season.

Class	Min.	Height	XX	XXX
B&B	2	ft.	\$ 1.00	
B&B	3	ft.	1.50	

NB—at 25% off B&B Prices!

COTONEASTER

FRANCHET *C. franchet*

Semi-upright habit of growth, medium dull gray-green leaves, white underneath, dull red berries.

Class	Min.	Spread	XX	XXX
B&B	3	ft.	\$1.80	\$ 2.50
B&B	4	ft.	2.50	3.20

XX IS STANDARD QUALITY!

XXX IS SPECIMEN STOCK!

CAPE JASMINE—*Gardenia*

One of the most commonly known Evergreen Flowering Shrubs in the Gardens of the South. Very popular for their fragrant, white flowers. Does not like Lime or Alkali soil. Prefers neutral or Acid soils.

DWARF SPREADING—

Gardenia radicans prostrata nana

Spreading habit. Small, pointed leaves about one-half inch wide glossy green. Small *Gardenia* flowers, fragrant and snowy-white; blooms early in the Spring. Used for Low groups and borders.

Class	Min. Size	XX	XXX
B&B	18 in. Sprd.	\$ 1.20	\$ 1.60
B&B	24 in. Sprd.	1.60	2.10
B&B	30 in. Sprd.	2.10	2.90
B&B	36 in. Sprd.	2.90	3.70
B&B	4 ft. Sprd.	3.70	4.90

FLORIDA

Gardenia grandiflora

Very bushy habit. Dark green, glossy foliage. Large white waxy scented blooms, produced only in the early Spring Season.

Class	Min. Height	XX	XXX
B&B	2½ ft.	\$ 1.50	\$ 1.90
B&B	3 ft.	1.90	2.40
B&B	4 ft.	2.90	3.80
B&B	5 ft.	3.80	5.40

FORTUNE

Gardenia fortunei

(Fall Blooming type) Compact, bushy habit. Dark green foliage. More Hardy than Florida. Blooms are medium size, waxy white, and sweet scented, appearing in the Spring, and at intervals in the Summer.

Class	Min. Height	XX	XXX
B&B	2½ ft.	\$ 1.90	\$ 2.40
B&B	3 ft.	2.90	3.80
B&B	4 ft.	3.80	5.40

DESMODIUM

Lespedeza bicolor

WHITE AND PURPLE. "Tick Clover", "Bush Clover". Weeping habit. The foliage is fine, light green, and lacy in appearance. Pendulous racemes of flowers in late Summer.

Class	Min. Size	XX	XXX
B&B	12 in. Clump	\$ 1.30	
B&B	18 in. Clump		2.40

NB—at 25% off B&B Prices!

CRAPE MYRTLE *Lagerstroemia indica*

The favorite Flowering Shrub of the South. A hardy and Heavy bloomer; it paints the Landscape in the Summer months with its brilliant blossoms in tones of Crimson Red, Pink, Lavender and White. Frequently termed the "Lilac of the South". Beautiful display of color unrivaled the first Summer. The most generous usage and the demand of recent years indicates its great popularity.

PRUNE EVERY WINTER: For best results Crape Myrtles should be cut back to One Foot of the ground when planted. By using B&B in big sizes you get better root systems. Then every year thereafter, prune them back to within two to four inches where they were the year before. In this way you get much larger flowers, thick branches, and dense foliage.

We grow most of ours in Balling Soil—it pays to Ball them. Write on order if Single Stem, or if Bushy Plants are wanted.

DWARF BLUE

L. i. courulea nana

Low spreading, lavender-blue flowers in loose panicles which almost cover the plant.

LILAC

L. i. lilac

Class	Min. Height	XX	XXX
B&B	5 ft.	\$ 1.50	\$ 2.00
B&B	6 ft.	2.25	3.00
B&B	7 ft.	3.00	4.50
B&B	8 ft.	5.40	7.50

Griffing's Watermelon Red Crape Myrtle

Interplanted with evergreens, beautiful effects are obtained. Massed in groups of any size, a display of color unrivaled is had the first summer. The most generous usage and the demand of recent years indicates ITS GREAT POPULARITY.

IMPERIAL PINK

L. i. rosea

The light Pastel shade of this variety is excellent in many locations in the Landscape.

LAVENDER

L. i. lavendula

The flower heads are large size of clear, bright Orchid-lavender—not the common dingy purple.

MAGENTA

L. i. magenta

A very deep red of outstanding merit. Very rich color.

WATERMELON RED (Griffing's Type) *L. i. rubra*

The Watermelon Red or Cerise color so much admired. Watermelon Red Crape Myrtle has flower heads exceptionally large and fluffy, the color rich, clear and bright. No shrub makes such a gorgeous display in a planting as this. Our type is recognized as being the Best type on the market.

Class	Min. Height	XX	XXX
B&B	5 ft.	\$ 1.75	\$ 2.25
B&B	6 ft.	2.25	3.25
B&B	8 ft.	3.25	3.90
B&B	10 ft.	3.90	4.90
B&B	12 ft.	5.40	6.80

NB—at 25% off B&B Prices!

STANDARD TREE FORM—Trimmed to Single Stem. ALL VARIETIES LISTED ABOVE.

We offer the foregoing varieties of Crape Myrtles in Standard or Tree Shape form so useful in landscape plantings. These have been pruned to a single stem to be grown on as a tree instead of a bush.

Class	Min. Height		XX	XXX
B&B	6 ft. 1 in.	Clpr.	\$ 2.25	\$ 3.00
B&B	8 ft. 1 1/2 in.	Clpr.	3.00	3.90

E L M—Ulmus

AMERICAN Ulmus americana

An attractive Shade tree for the more arid regions. Small leaves; small weeping branches.

CORKBARK SMOOTHLEAF ELM Ulmus carpinifolia suberosa

Open head tree, smooth dark green foliage.

CHINESE Ulmus parvifolia

SIBERIAN (DWARF) ELM Ulmus pumila

Small tree, sometimes shrub-like thorny branches.

Class	Min. Height		XX	XXX
B&B	6 ft. 1 1/4 in.	Clpr.	\$ 1.60	\$ 2.00
B&B	8 ft. 1 1/2 in.	Clpr.	2.00	2.90

SPECIMENS—4 in. Clpr. up \$10.00 and up.

ELAEAGNUS

No group of Broadleaf Evergreens have grown more in favor during the past few years than the Evergreen Elaeagnus. A most versatile Shrub, for foundation plantings, groups, borders or hedges. To our knowledge no other Shrub grows better than Elaeagnus in Shady Locations, as well as in Full Sun. Small white flowers, followed by small transparent Red Edible Fruits.

NOTE—All Elaeagnus Cutting Grown.

BROADLEAF E. pungens macrophylla

Leaves are large and pointed, upright grower, fast growing type.

FRUITLAND E. pungens fruitlandi

Very similar to Broadleaf, only it has more open, weeping growth.

ROSEDALE E. Griffing's Hort. Var.

A new sport. Small leaves, upright growth, many small branches, making compact growth.

SIMON E. pungens simoni

Small dark green leaves and Vase shape growth. Preferred by some for background planting or a tall narrow hedge.

Class	Min. Height		XX	XXX
B&B	2 1/2 ft.			\$ 1.90
B&B	3 ft.			2.50
B&B	4 ft.			3.40
B&B	5 ft.			5.50

DWARF THORNY E. pungens nana

Semi-spreading compact habit. This variety is exceptionally good when planted under Windows where it can be constantly sheared, making a wide Spreading Evergreen growth.

Class	Min. Size		XX	XXX
B&B	3 ft.		\$ 1.40	\$ 1.90
B&B	4 ft.		1.90	2.60
B&B	5 ft.		2.60	3.40

ELAEAGNUS USEFUL FOR HEDGES:

Most hedge materials fail to grow in Shade, yet often hedges are required under Shade trees, as well as in the Open Sun. Most satisfactory for this purpose, we recommend the Elaeagnus.

GRIFFING'S COMPACT E. Griffing's Hort. Var.

New and unusual type, a sport of the Fruitland discovered by us in 1934. Preferred to all other varieties of Elaeagnus by many Customers and Landscape men because of its close Compact, attractive growth. Semi-spreading compact habit, leaves of medium size and quantities of small branches make it very attractive and good for clipped Hedges or Specimens.

Class	Min. Height		XX	XXX
B&B	2 ft.		\$ 1.40	\$ 1.90

B&B	2 ft.	1.00	1.25
B&B	2 ½ ft.	1.50	2.00

FIRETHORN—Pyracantha

Sometimes called "Crataegus" and "Evergreen Hawthorn". A family of plants of the greatest beauty in masses against foundations, along borders, etc.; graceful branches, Brilliant Winter berries.

The Berries on the FIRETHORN cling till Spring when attractive White Flowers take their place. Blooming at the same time as the Spirea, (Bridal-wreath) and most attractive, so that the plant has always some beauty in addition to its Green foliage. The large sizes require large balls and severe pruning for successful transplanting from our Black Balling soil.

ALL FIRETHORNS CUTTING GROWN:

Cluster of Berries from Wilma Firethorn.

The New Pyracantha "Wilma"

➤ **UPRIGHT GLORIOSA** *P. gloriosa*
Same as Gloriosa except it has an upright habit of growth.

WILMA *P. Griffing's Hort. var.*

A new Firethorn we introduced that has upset all records for sales. It is upright in habit of growth, masses of White flowers in the Spring and clusters of large Gorgeous Red Berries during the Winter Season.

WILMA FIRETHORN is the most talked of and in greater demand than any other variety we grow.

B&B	3 ft.	1.60	2.30

HOLLY-Ilex

There are many kinds of Hollies, some make Trees, others shrubs—all are valued for their berries. However, all the Trees or plants do not bear berries. Pistillate ones will bear if Staminate ones are grown close to them.

The Hollies are beautiful plants at all times, some varieties making large trees, and others small compact shrubs. Being clothed in hard, shiny, irregularly formed foliage, they hold their own among other Trees and Shrubs but in Winter, when loaded with beautiful berries, they are the glory of the garden. The Hollies are adapted to many uses—as individual specimens, in groups, foundation and border plantings, and formal clipped hedges. The Yaupons grow readily in the shade, and are not affected with heat or drouth conditions.

AMERICAN

Ilex opaca

BERRY BEARING-PISTILLATE-FEMALE. Tall, pyramidal growth with horizontal branches. Large, rounded, glossy dark green leaves with spines. Bears masses of bright Red Berries in Winter Season.

YAUPON HOLLY

Ilex vomitoria

This is undoubtedly the best of the native shrubs. It can be kept sheared resembling the fine-leaved Boxwood. **Nursery grown, root pruned**, balled from our Beaumont **Balling Soil**. **Compact growth**, highway improved over those grown in the woods. We have **sheared** some into **Globes, Cones, Squares and Pyramids**. We also grow blocks for **Hedge Purposes** and constantly headed **back** while small makes **low compact** hedges to start with. Umbrella shaped trees or compact bushy shrubs. The finest shrubs for compact hedges, sheared or unsheared. The young stems are light brown, turning to a light gray. The leaves are small, lustrous green above, and paler beneath, and cling from two to three years. The transparent red berries are very outstanding. This variety of Holly grown in all soils, and in shady locations, or in the open sun. Makes the best Evergreen Hedge. Also useful as specimens, screens, accents in foundation plantings; in fact, anywhere the Landscape Planting. They can be pruned to any shape or size, and with little work, look well at all seasons. Immune from all known kinds of insects and fungus diseases.

Red Berries of Yaupon Holly Attract Attention

YAUPON HOLLY—Natural Growth

BERRY-BEARING-PISTILLATE—FEMALE PLANTS. When covered with bright Red Berries in Winter there is nothing prettier.

OAKS ARE EVER-LASTING

The Shade Tree of the South, nothing can compare to the MAJESTY of the OAKS—because of their LONG-EVITY, everlasting beauty and RAPID GROWTH, the Oaks are now preferred to all other Shade trees.

PLANT EVERGREEN LIVE OAKS

OAKS—Quercus

Nursery grown Live Oak Trees Live and thrive under all conditions when the Trees have been transplanted and root-pruned and properly Balled and Burlapped from the right kind of soil and pruned properly as they are dug for shipment.

For the best results in planting our Live Oak Trees, we urge you to let us use our Best Judgment in Pruning the tops when we dig your orders for shipment. We recommend stripping and thinning out all the small limbs, the size of a pencil or smaller.

Fast Growing Exergreen Spanish Live Oak

Live Oaks are rapidly becoming the most popular Shade Tree in the South, because they are Evergreen, and make such a Shapely tree for any purpose they may be used. The Spanish type of Live Oaks are the Fastest growing variety.

We have the complete stock from Acorns gathered in Florida from the choicest isolated groves in existence, so there is not a chance of hybridizing. This true type of FAST-GROWING OAKS is designed to revise the idea that Live Oaks are a slow growing tree, much different from the ordinary native Live Oak tree.

Specimen Live Oaks Enroute to Planting.

There is nothing more beautiful than the true "SPANISH" LIVE OAK. This type has thick dark green, oblong, pointed leaves that glisten in the sunlight, the under-side being a grayish-green color. Always clean, rich foliage. Very straight bodies. From young seedlings we trim to single stem in center, not allowing forks. In years to come, forked trees may split open and ruin the tree.

PRICES FOR THE SPANISH LIVE OAK:

Experimental reports have been made by Experiment Stations after several years of study on suitability of soil for growing Live Oak trees. The tests show that they will grow on any kind of soil equally as well as on another, whereas, deciduous Oaks can only be grown on sour soil. Tests have also been made that Spanish Live Oaks ARE NOT susceptible to Texas Cotton Root Rot.

THE SATSUMA ORANGE

ORANGES—Citrus

For the black, waxy soils and stiff clay or flatwood lands of Texas and Louisiana. Citrus Trees should be low branched and dirt banked among limbs during Winter months. Our low branched Trees are sold according to caliper, measured just below the branches, not by height or age.

All Citrus budded on Citrus Trifoliata Root Stock.

ADVISE BANKING

We advocate the use of low branched trees, which are better able to withstand cold than those trained up on one slender stem, and in addition we have found that banking dirt in a mound high up around the tree 18 or 20 inches will protect the body of the tree from freezing, and at the worst, when such precaution is taken, only the smaller branches can be lost, and the next crop materially reduced.

SATSUMA ORANGE

Citrus oonshiu

This "Kid Glove" type is the early market Orange for the Coast Sections. Hardest Orange known. Begins bearing the second year. Fruit is medium size, flattened, deep orange color, fine grained, juicy, sweet and delicious. Seedless and thornless.

PALMS FOR TROPICAL BEAUTY

Nothing makes our Southern towns more INVITINGLY TROPICAL, especially in the eyes of our NORTHERN VISITORS, than the Palms, at home in OUR MILD CLIMATE. Lofty palms lining an avenue suggest stability and dignity. A careless grouping of palms with other evergreens makes for an EFFECT OF LUXURIANCE that NOTHING ELSE can create.

By selecting Hardy varieties, they can be planted a 100 miles inland from the Gulf. They should be planted extensively, as Northern Visitors look for the distinctive tropical effect of Palms in our South-land landscape.

BLACKBURN

Sabal Blackburniana

Fan-shaped leaves; hardiest of all Palms, can stand almost zero temperature without injury.

Class	Approx. Ht.	Min. Caliper	XX	XXX
B&B	2 ft.	3 in.	Clpr.	\$ 2.20
B&B	3 ft.	3½ in.	Clpr.	3.40

NOTE—For Trunk above 4 ft., add 2.00 per foot!

Sabal Palm—Hardiest Variety

CANARY DATE PALM

Phoenix canariensis

This variety is the noblest of all the Phoenix family, being one of the most majestic Palms in cultivation. Its long graceful, swaying leaves often attain a length of from 10 to 15 feet.

Class	Min. Height	XX	XXX
B&B	3 ft. 4 in.	Clpr.	\$3.50
B&B	4 ft. 6 in.	Clpr.	4.60

Canary Date Palms in Parking.

LATANIA PALM

L. chi. livistona

Class	Min. Height	XX	XXX
B&B	15 in.	4-6 leaves	\$2.00
B&B	20 in.	6-10 leaves	3.00

Palms are measured and graded by the THICKNESS OR DIAMETER OF THE TRUNK where it protrudes from the ground. From 40 to 60 per cent of the leaves are cut when dug. After new growth starts, fertilize liberally with stable manure and water freely and your Palms will give pleasing results.

Our Palms grow very stocky in the heavy black land, having strongly developed leaves and large, thick, pronounced trunks. More leaves according to caliper than on the palms grown in thick rows.

Beautiful Hardy Pindo Palm

PINDO PALMS

Cocos australis

Cocoanut Palm growth. Leaves similar to Date Palm. Its long drooping leaves blue-green color are very attractive. Very hardy, will stand the ordinary cold weather inland 100 miles from the Gulf. Bears edible fruit in early Summer.

Class	Min. Height		XX	XXX
B&B	2 ft.	3 in.	Clpr.	\$ 2.00

Pampas Grass

PHOTINIA**HOLLYLEAF***P. dentata*

Large sawtooth leaves with reddish tint when young and fawn colored stems.

Class	Min. Height		XX	XXX
B&B	3 ft.		\$ 1.50	\$ 2.30
B&B	4 ft.		2.30	3.50
B&B	5 ft.		3.50	4.90

Griffing's Waxleaf Privet

Pittosporum

PITTOSPORUM**TOBIRA***P. tobira*

Spreading habit, branching close to the ground. Leaves medium size, dark glossy green, edges curved downward. The leaves form into clusters at the end of the branches, having a whorl or rosette appearance. Small yellowish-white flowers early in the Spring, with fragrance resembling Orange blossoms. Fits well into groups or masses, forming a dark green compact mound. Does well near the seashore.

WHITESPOT*P. tobira variegata*

Similar to Tobira except leaves margined with White variations.

Class	Min. Size		XX	XXX
B&B	18 in.		\$ 1.40	\$ 1.80
B&B	2 ft.		1.80	2.30
B&B	2½ ft.		2.30	2.90
B&B	3 ft.		2.90	3.40
B&B	4 ft.		3.40	4.90

PODOCARPUS

One of our most Attractive Shrubs. The edible fruit is very peculiar, as it has a blue stem with a red ball at the end. Can be planted at the edge of Salt water without injury. One of the most versatile Trees grown, for borders and groups, or as individual Specimens.

A Very Choice Specimen for the Landscape

BROADLEAF YEWE*Podocarpus macrophylla*

Beautiful Evergreen upright branches or small tree. Rather broad leaves, light green when young, dark green when mature.

LITTLELEAF YEWE*Podocarpus microphylla*

Similar to Broadleaf except Bush is more compact in form, and more slender growth; leaves are more narrow, and are dark green from youth to maturity.

Class	Min. Height		XX	XXX
B&B	3 ft.		\$ 1.60	\$ 2.50

PRIVET—Ligustrum

This is a large family with various Shaped leaves, branches and color, etc. Largely used throughout the South. All varieties have masses of white flowers followed with black berries.

Acres of Griffing's Waxleaf Privets

BLACKLEAF**L. lucidum nigrafolium**

Distinct Black-green foliage, compact growth. Most hardy of the Ligustrum group; very thick and glossy shrub.

CRINKLYLEAF**L. lucidum recurvifolium**

A descriptive name from its twisted or crinkly leaves. Its long upright arching branches with dark green foliage makes it very attractive; much hardier than most of the lucidum types.

Crinklyleaf Privet

WAXLEAF, GRIFFING'S**L. lucidum compactum**

This is the Best bushy compact Evergreen shrub along the Gulf Coast. We have continued propagating from Cuttings this variety from the original plants. Its low compact growing type is decidedly different from a lot of Waxleaf.

Class	Min. Height	XX	XXX

ROSES

We have two varieties to take the place of Ever-blooming Flowering Shrubs to give bright flowers throughout the growing Season, distributed in group plantings, and for hedges or low growing borders.

AZALEA ROSE

Flower clusters much larger than the usual Baby roses, on good strong stems, growing about two feet high. A free and vigorous grower and abundant bloomer. Color a bright Rose-Pink. A group resembles an Azalea planting.

LOUIS PHILIPPE ROSE

The foliage and bush is a very strong bright green. The bush is a very strong upright grower of bushy habit and with bright red flowers, hanging in clusters over the bush at all Seasons of the year, it is one of the best flowering long-life shrubs that can be planted.

Class	Min. Height	XX	XXX
B&B	Strong 2 yr., each	\$ 1.25

GRADING TREES BY QUALITY

GRIFFING AND QUALITY

QUALITY NURSERY STOCK AND THE NAME "GRIFFING" have been associated together for over fifty years. To the Trade, as well as the public, **GRIFFING'S TREES** are known to mean the Best Quality, produced under the most adaptable conditions. It is with this same emblem of Quality that we aim to serve our old and new patrons.

The Highest Quality does not mean the Highest price—instead it is always the Cheapest. Our Nursery stock is a product you are proud to own—it lives, it satisfies, and give results. It comes from a Firm with a record of long tested values of Quality Production.

WE GROW OUR OWN STOCK

We are not jobbers or brokers. We grow all of the Nursery Stock offered in this catalog at our nurseries, located near Beaumont, Texas, except Roses and a few Fruit Trees, which are grown under contract and our supervision.

The growing of Nursery Stock is a highly specialized business requiring an exact knowledge of plants and horticultural and scientific methods. After 50 years of successful growing, we can without boasting claim to be experts in our line.

Through costly experiments, we have been able to determine the most hardy and suitable varieties for the Southwestern territory, and on these varieties, we have concentrated our main efforts so that our large 300-acre Nursery may yield an abundance of these plants to meet the ever-increasing demand.

XXX
Sylvester Juniper. Which would you prefer?
XX

PRICED ACCORDING TO QUALITY

The descriptions are followed by OUR PRICE for the different sizes, grades, and QUALITIES.

WHAT IS B&B?

Moving a Tree with THE ROOTS in the DIRT in WHICH IT GREW. The Griffing method of B&B has upset all traditional customs about TIME OF PLANTING, size that CAN BE PLANTED, and has eliminated years from planting TIME to the day when the effect is really visible.

ADVANTAGES OF B&B

When Trees and Shrubs are TRANSLANTED B&B they grow; they REQUIRE LESS maintenance; they do not require SEVERE PRUNING TO MAKE THEIR Appearance; they are EASIER TO PLANT, and a year or more IS GAINED in the GROWTH of a B&B Tree over one PLANTED NB.

Plants like people are individuals, and all ROOT SYSTEMS are not alike; therefore baling cannot BE MECHANICALLY done for the sake of LOOKS and the best results secured. Our men are TRAINED TO DIG our Trees and Shrubs with Balls to preserve the ROOT SYSTEMS of the Plants FOR SAFE transplanting.

HOW BALLING AND BURLAPPING (B&B) IS DONE—

Look at the photographs, showing the procedure of digging, lifting FROM THE HOLE, and casing with strong BURLAP. The feeding roots are in the BALL. The moisture and SOIL is held INTACT. No shock results from DIGGING. Plants start growth MORE RAPIDLY. The loss among balled plants IS NEGLIGIBLE and with proper care and attention AFTER PLANTING in the way of WATER AND CULTIVATION, there is no necessity of LOSING A PLANT.

HOW WE BALL

We do not SPADE THE BALLS OUT and tie burlap around the LOOSENED SOIL, nor do we DRIVE A CYLINDER around to cut roots TOO SHORT, but the SOIL IS SOLID, never cracked and SIZE OF BALL to conform to the ROOT SYSTEM.

GRADING BY SPREAD

In 1923, the American Association of Nurserymen adopted a Standardized System for Grading Nursery Stock, using the symbol of X's to indicate QUALITY and dividing the various classes of Evergreens into Grade Groups. In our judgment, this is the only way to honestly grade and sell Nursery Stock.

When you visit our Nurseries, we will be glad to show you what is meant by Standardized Grading, and when you order, if you will specify the Quality you want, we will make your selection accordingly. We give the following illustration to show what is meant by Grading by X's—all plants are the same height, but there is a great difference in the general appearance and value.

XXX XX X
Griffing's Waxleaf Ligustrum, illustrating Quality of Plants.

XX AND XXX PRICES

Throughout this list, you will find the schedule of prices are according to X's.

XXX indicates strictly heavy, low branched, choice Trees or Shrubs.

XX indicates well developed, medium branched, good merchantable Trees or Shrubs.

X indicates poor quality, measured by height. All Nursery rows have some. Not listed in this Catalog.

SPECIMEN STOCK above XX and XXX selected or marked in the Nurseries will be priced according to its value.

YOU GET WHAT YOU BUY

THE GRIFFING SQUARE DEAL—Use Standardized Grading System so those who come to the Nursery and those who do not come, get exact Quality of merchandise as they specify. If you come to the Nursery, you will see the different Quality, but those who don't come, can rely on the Quality being given them as they designate in ordering. (We do not approve of the old fashioned way of letting the Professional Buyers select the choice of the stock early in the Season of current prices and force the ones buying later to pay the same price for the culls.) The System of Quality gives the purchasers a fair opportunity to buy, and a Standard to order by, without personally selecting his material to get a "Square Deal."

The Thousands of Customers using Griffing Quality products make it profitable for us to carry on. Their patronage is appreciated, and their satisfaction is expressed in such testimonials as:

"100 per cent of our Plantings Lived and Grew."
"100 per cent of our Customers are satisfied when Griffing Trees and Shrubbery are used."

"100 per cent Profit is made on our orders where Griffing's Shrubbery is used."

IRRIGATION

This is one of the facilities WE APPRECIATE MOST in the production of quality Nursery Stock. Fresh Neches River WATER can be applied through FOOD IRRIGATION anytime OF THE YEAR. In this way the plants never suffer OF GROWTH, instead a compact ROOT GROWTH is developed. No roots have TO SEEK moisture for a LONG DISTANCE. The illustration shows the VALUE OF THIS in digging B&B Plants for transplanting and saving OF ROOT SYSTEM.

PLANTS GROWN ON

HIGHEST QUALITY FOR RESULTS

Since 1886 when we first began to grow and offer selections of Shrubbery, Shade Trees and Fruits to the public, we have tried continuously to produce and offer the highest quality selections of quality and varieties we could. Based on this practice of doing business, we have built our business on the foundation of "High Quality and Good Stock," and satisfied customers.

We take pride in serving our customers by furnishing high quality, true to variety, and good hardy field grown stock that we know will give results when transplanted and given a reasonable amount of care and attention. Today it is a real pleasure to point out the Home Grounds and Orchards throughout the Southwest, where our selections of Trees and Shrubbery has played such an important part in their development.

A NURSERY WITH A BACKGROUND

Over fifty years have passed since the present Griffing Organizations had their first inception in a small nursery in Northern Florida on land owned by the late D. C. Griffing, and managed by his five sons under the name of "Griffing Brothers."

Always the Griffings grew the stock they sold, offered the best of everything, experimented in every locality to find the most adaptable varieties, dug their Trees with care, packed under rigid inspection, and in all their activities gathered and disseminated information for the benefit of their patrons.

EXPERTS IN OUR LINE

The growing of Nursery Stock is a HIGHLY SPECIALIZED BUSINESS requiring an exact knowledge of Plants and HORTICULTURAL and scientific methods. After over FIFTY YEARS of successful growing we can without boasting, claim to be EXPERTS in our line. Our standards are of the highest.

Our field work is under the SUPERVISION of experienced Foremen, and they give our customers the benefit of their EXPERT KNOWLEDGE of how to GROW, DIG and SHIP our Nursery Stock.

EXPERIENCE COUNTS

Our plants are the finest that can be produced. OUR EXPERIENCE enables us to offer you a VALUABLE and practical SERVICE in SELECTING, Planting, and caring for plants. We can and we are certain, from the EXPERIENCE OF YEARS, that you will find it pleasant and profitable to deal with us.

LANDSCAPING AN INVESTMENT

We have VET TO MEET the owner who ever regretted an INVESTMENT—where he had UNDERTAKEN this improvement under the competent advice and DEALT DIRECT with reliable, established Growers. Even one great towering Shade Tree—what a restful DELIGHT IT IS! Worth hundreds of dollars. Yet not impossible to purchase by simply PLANNING FOR IT.

THE IMPORTANCE OF LANDSCAPE

The aim of Landscape Design is to produce the MAXIMUM OF BEAUTY consistent with utility. To attain THIS RESULT, it is usually best to secure THE SERVICES of a Landscape Architect, whose assistance will not only serve to AVOID ERRORS but will also save EXPENSE AND TIME.

LANDSCAPE PLANTING

A WELL-LANDSCAPED dwelling gives out a perpetual smile. Winter and summer alike—to its owner's family, and every passing stranger—it radiates quiet, JOY, refinement.

IT NEED NOT BE a large elaborate dwelling: A cottage, even more than a castle, needs A BECOMING SETTING. Neither is much room needed. On the contrary, never is the Landscape Architect's touch more wonderful—or needed—than in making the utmost of A NARROW OR SHALLOW LOT.

YEAR 'ROUND PLANTING OF EVERGREENS

Many Nurserymen will refuse to transplant Trees and Shrubs during the late Spring and Summer months. Due to the fact that we have particular kind of soil especially adapted for Balling Trees and Shrubs and our methods of Root Pruning, we are able to move Trees and Shrubs, at any season of the year without the loss of small branches or even leaves. Our experience has taught us that by the use of our Trees and Shrubs, planting can be done in the Summer as well or even better than during the Fall and Winter.
